RELIABLE SUPPORT

A detailed, close-up photograph of heavy machinery, showing various gears, shafts, and mechanical parts. The image is in grayscale and occupies the left half of the page. 

# ABOUT US

*With 40 years of experience in heavy equipment and trucking diagnostics, Pro Diagnostics specializes in emissions systems, injection systems, turbos, and specialty parts. Our company started with ECM rebuilding and software development. We have been in business for 11 years offering cutting-edge technology and outside-of-the-box solutions to keep businesses moving. Our company prides itself on its rapid response and impeccable service.*

*Backed by skills, tools, and expertise, our team is ready to guide you toward solutions to maximize productivity. We understand how important it is to keep your machines running smoothly and at their best at all times. We are different from your regular OEM service department and we strive to save you as much money as possible. We will be your trusted partner – helping you stay ahead of the curve and achieve your goals.*

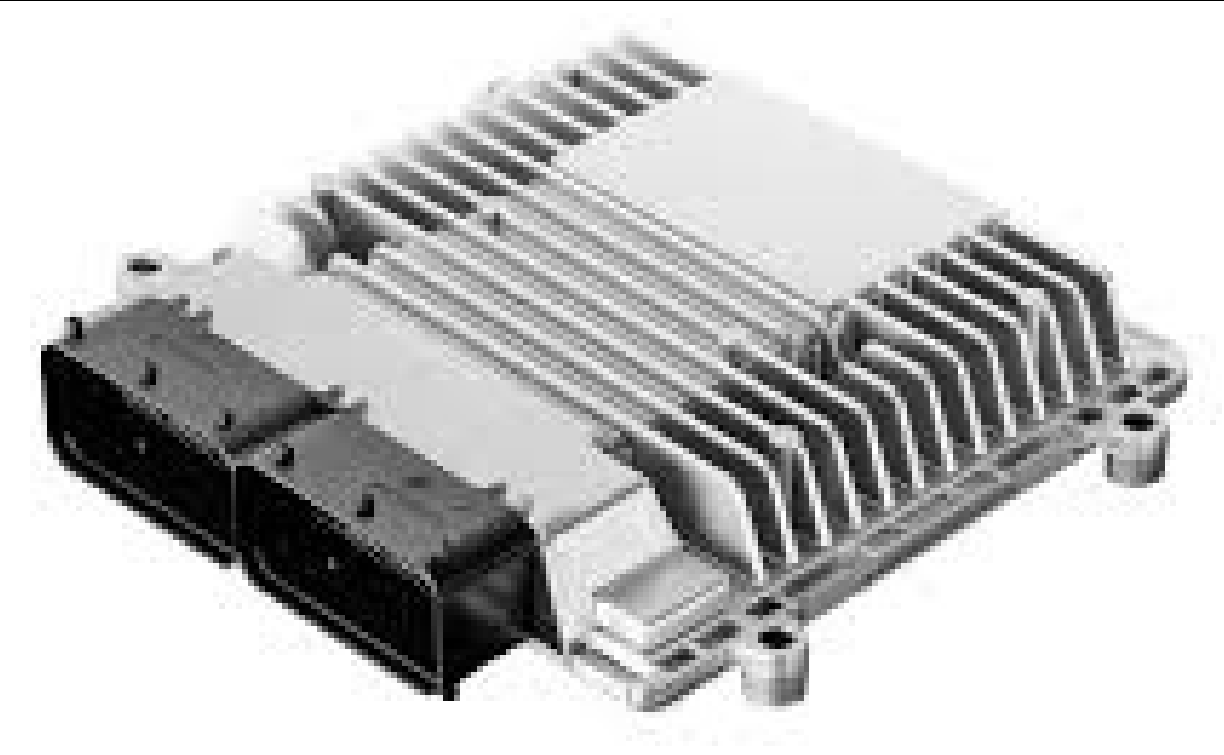

# **PRO DIAGNOSTICS SERVICES OFFERED:**

- **FLEET MANAGEMENT-  
PARTS & SERVICE**
- **HYDROGEN CARBON  
CLEANING**
- **POWER DIVISION**

# FULL FLEET MANAGEMENT

We **REBUILD** and **REPAIR** your ECM - **SAME** day service. Reflash & send overnight. Majority of controllers can be repaired and programmed on site.

We have **NEW** turbos, **REMAN** turbos, and we can **REBUILD** turbos. All normal turbos in stock and can be overnighted to you.

**There's no injector we cannot REBUILD. We stock the cores and can have them to you tomorrow, if not, overnighted and to you the next day.**

**We carry NEW and REMAN drop in motors with warranty, ready for your equipment. Turn around time depends on the work load, normally 7 days from placement of order.**

»» **LESS DOWNTIME!** ««

YOUR  
PROFITS  
WITH US!**

# **HYDROGEN CARBON CLEANING**

## **■ COMPLETE EMISSION PREVENTATIVE MAINTENANCE ■**

### **WITH OUR NEW PREVENTATIVE MAINTENANCE PROGRAM:**

- YOUR EQUIPMENT WILL GAIN BETTER FUEL ECONOMY!**
- LESS REGENERATION TIME!**
- NO MORE FILTER REMOVAL TO CLEAN!**
- CLEANING DONE AT YOUR LOCATION!**
- WE CLEAN FROM TIP TO TAIL!**

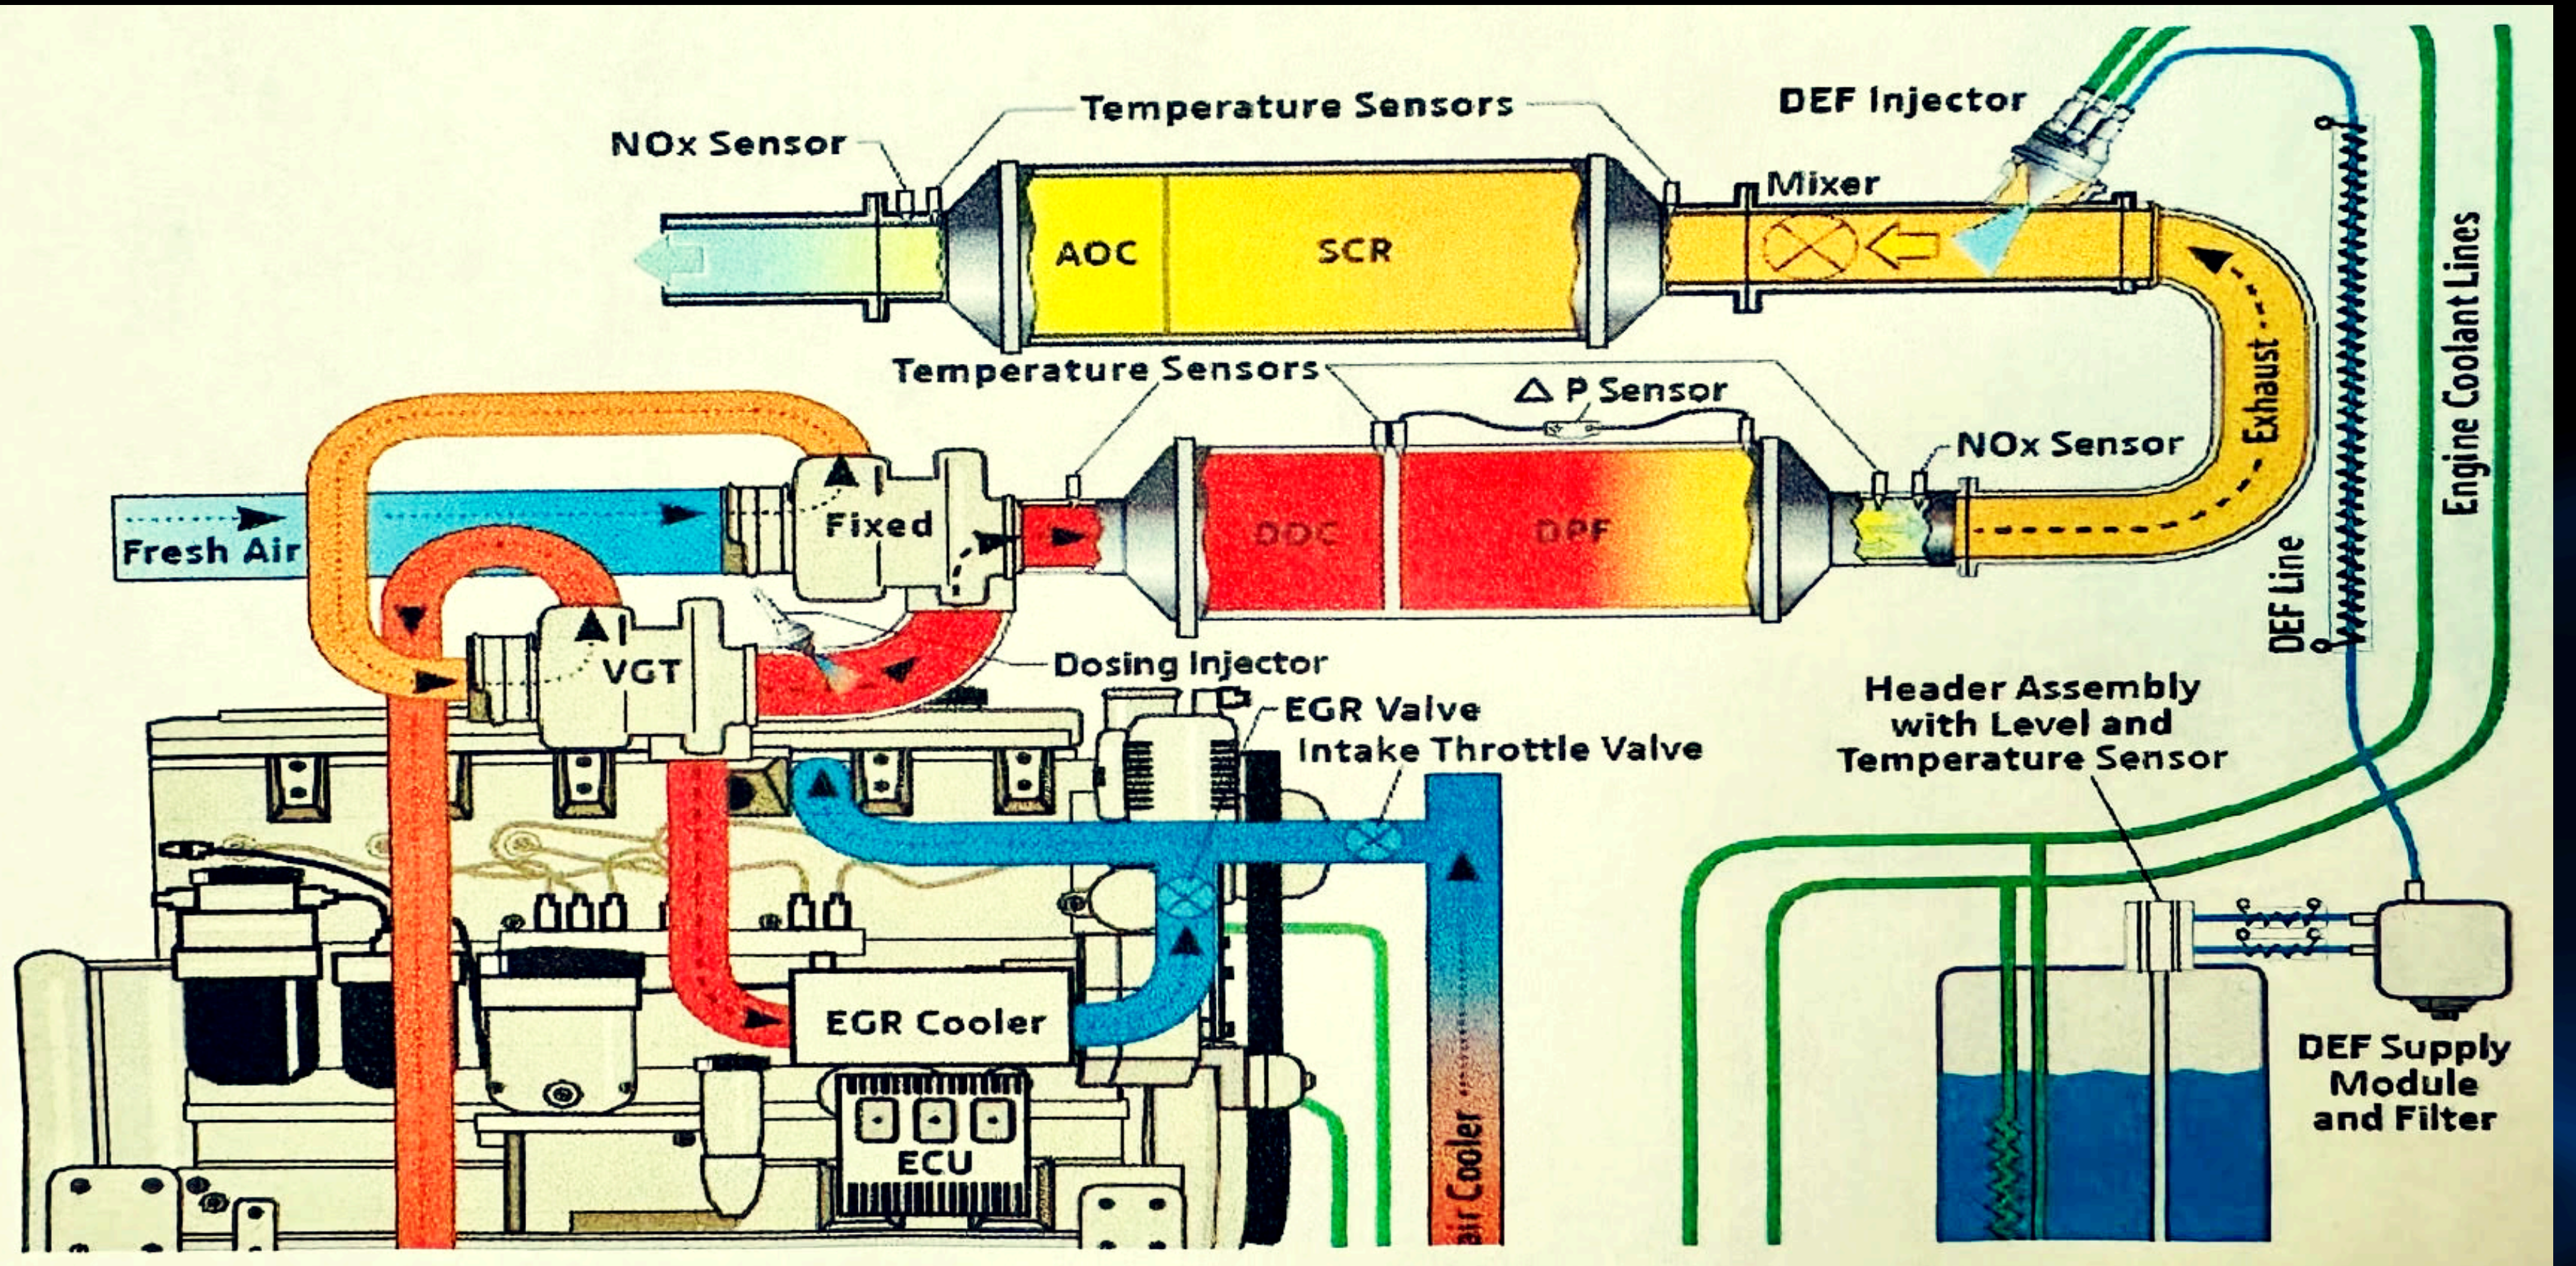

## **ABOUT OUR SERVICE:**

***We provide the ONLY tip to tail Carbon Removal Program in the Industry that does not use any harmful chemicals. Our HHO Machines convert hardened carbon into a rehydrated Hydrocarbon that simply burns off as fuel during the combustion process. Our BAC101 is the industry's only vehicle treatment that actually removes ash, soot, and oily contaminants with the use of high pressure air. These contaminants will destroy the DPF and Catalytic Converters sensitive components. This entire process takes less than 90 minutes!***

***KEEP POWER GOING!***

**VOLVO**

**Cummins**

**CATERPILLAR**

***YOUR NEW LEADER IN TOP-TIER, RELIABLE, AND STREAMLINED  
POWER GENERATION!***

## **IN CONCLUSION:**

***Opting for professional diagnostics, instead of relying on product dealers, can lead to significant savings, often up to 40%. Professional diagnostic services typically offer competitive pricing because they operate independently from major brands and do not carry the overhead costs associated with dealership facilities. This means customers can access high-quality repair services without paying a premium. Additionally, technicians often possess a wealth of experience across various brands, allowing them to troubleshoot issues more effectively and efficiently. This expertise can lead to quicker repairs with accurate outcomes, minimizing downtime and enhancing customer satisfaction.***

***Moreover, using pros can provide a more personalized experience, as independent technicians frequently prioritize customer service, ensuring that clients feel valued and understood. Many customers also appreciate the transparency that comes with Pro Diagnostics, as technicians often explain the repair process and cost upfront, fostering trust. Finally, opting for independent services does not necessarily mean sacrificing quality; many professionals are certified and use advanced tools and techniques, giving customers reliable results at a fraction of the dealer price. By partnering with Pro Diagnostics, you are choosing high-quality services while saving TIME and MONEY!***
